

## Ice Max Machine Cleaner 130ml/

### HSC50004

Ice Max is a high performance ice machine cleaner and powerful scale remover in powder form.

- Environmentally friendly- leaves no acidic residue, eliminating the risk of hazardous liquid spills
- Nickel safe, fast acting, easy to use
- Powder form saves on freight costs and requires minimal storage space

Has maximum scale removing power, and increases ice machine efficiency

### Extra long shelf life

when kept sealed ICE MAX has an indefinite shelf life. ICE MAX will not separate or chemically change over time. The worry of how long your ice machine cleaner has been in inventory or in the service van is gone.

### Prevents corrosion

A high performance corrosion inhibitor is combined with ICE MAX to help prevent future corrosion and inhibit formation of scale.

### Saves valuable space

One 4.4 oz. bottle of ICE MAX is equal to over a pound of 3:1 concentrated liquid solution of ordinary ice machine cleaner. A regular ice machine cleaner will take 4 times more inventory space than ICE MAX.

### Better hazard control

ICE MAX avoids dangerous and messy spills that can damage your facility, vehicles and destroy other valuable inventory. Prevents liquid spills that can attract unnecessary regulatory attention. Ice Max contains a high performance corrosion inhibitor. It has an extended shelf life and will not separate or chemically change over time.
