Excellence Through Experience

# Returnable Cylinders

- All returnable cylinder valves are fitted with a RPD (Residual Pressure Device)
- Maintains positive pressure in cylinder at all times (even if valve is left open)
- Less residual refrigerant emissions compared to disposable cylinders
- Reduces carbon footprint
- Valve technology incorporates safety relief device
- Robust packaging makes refrigerant cylinders easy to handle
- Fitted with a dual valve which allows for liquid withdrawal in the upright position
- Cylinders have serial numbers for ease of tracking and accountability
