

Oil Checker (HSC16501)

Highside Chemicals introduces the newest chemical tool for easily identifying refrigeration and air conditioning lubricants in just seconds! In two quick steps, you can identify:

- Mineral Oil
- Alkylbenzene
- Polyol Ester

Test Result	Indicates	
CLEAR	Polyol Ester	
CLOUDY	Mineral Oil or Alkylbenzene	
CLEAR	Alkylbenzene	
CLOUDY	Mineral Oil	

Benefits

- Saves time and money by eliminating the need for refract meter or expensive laboratory test
- Avoids the costly mistake of mixing POE and mineral refrigerant oils
- Is easy to use ... get results within seconds
- Should be used to check the type of oil in a system before adding additional oil
- Can be used with all types of refrigeration oils
