

A-GAS®

INTRODUCING R134a RAPID-CHARGE

R134a RAPID-CHARGE packs allow for a simple, quick and easy way to charge equipment in an efficient manner. R134a is commonly used as a refrigerant in the automotive air conditioning, domestic and commercial sectors

RAPID-CHARGE R134a is sold in a convenient shrink-wrapped "triple pack" giving a total of 2 025 grams

Valves are supplied separately and can be used on all other RAPID-CHARGE products

Special technology allows the valve to be removed safely without product loss

RAPID-CHARGE packaging and labeling complies with local legislation
