

FREDDOX MANIFOLD SET

Freddox HVAC&R 2-way Manifold Set, designed for precision and efficiency in maintaining and troubleshooting refrigeration and air conditioning systems.

This versatile tool features a high-quality manifold with easy-to-read gauges which are designed with an anti-flutter feature which reduces needle fluctuation and increases reading accuracy, durable hoses, and robust valve controls, ensuring accurate pressure readings for both low and high-pressure systems. It supports multiple refrigerants, making it adaptable for various HVAC&R applications.

Features

- 2 Way Aluminium Block
- Ergonomic Design
- Large easy to read 80mm Gauges
- Rugged Moulded Storage Case
- Anti-flutter gauge feature
- HNBR Gaskets
- 56 bar Max Pressure (Hose)
- Adjustable Zero Point

TECHNICAL DATA

Freddox Manifold Set - Refrigeration

MODEL	FDB-REF	
BRIC CODE	4401-93661FDBREF	
Hose Set	3 Flexible Barrier Nylon Hoses 1/4" SAE (Red, Yellow, Blue)	
Hose Length	1500mm	
Rated Refrigerants	R452A, R449A, R448A, R404A, R134a	
Gauges	LP	HP
Class	Class 1.0	Class 1.0
Size	Ø 80mm	Ø 80mm
Range	-1 to 8 bar	0 to 35 bar
Temp Scale	°C	°C

Freddox Manifold Set - Airconditioning

MODEL	FDB-AC	
BRIC CODE	4401-93661FDBAC	
Hose Set	3 Flexible Barrier Nylon Hoses 1/4" SAE (Red, Yellow, Blue)	
Hose Length	1500mm	
Rated Refrigerants	R134a, R407C, R32, R410A	
Adaptors (x2)	1/4" SAE Male x 5/16" SAE Female	
Gauges	LP	HP
Class	Class 1.0	Class 1.0
Size	Ø 80mm	Ø 80mm
Range	-1 to 20.7 bar	0 to 55 bar
Temp Scale	°C	°C
